

LIFE

I like this thing called life
With all its struggles and strife
They're what makes me who I am
They help me one day to stand
To face a tomorrow with unknown challenges
I like this thing called life

I like this thing called life
I get a lifetime to iron out my rough edges
To sharpen my wit and compare and contrast
To reason and unreason my thoughts and perceptions
I like this thing called life

I like this thing called life
I really do
I get to see how others tackle the hard questions
I get to make mistakes and learn right from wrong
I like this thing called life

Hey, why not take a walk with me
I like this thing called life

By John Talsma (for Zoe)
